EXPERIENCE

- **Luminar-technolab** — Kochi, Kerala
  MEARN Stack Developer (Full-time) — *May 2025 - present*
  HTMl, CSS, Javascript. Developed forntend projects using Bootstrap and Tailwind.
  frontend projects:Restaurant website, Travel Website, Movie booking Website,Furniture Website.

PROJECTS

- **Ksrtc Management**: A digital solution developed using Python, Django, and Android to automate KSRTC's daily transport operations. It replaces traditional paper-based workflows with real-time management of vehicles, staff, incidents, and bus tracking. Key features include billing, reporting, data analysis, secure data storage, and live bus location tracking.
  Tech Stack: Python Django, MySQL, HTML, CSS, JavaScript, JSON, Android (XML), Apache HTTP Server

- **Furniture Website**: Designed and developed a responsive furniture website using HTML, CSS, and Bootstrap. The site features clean layout design, image galleries for showcasing products, and well-structured content sections for product details and company information. Optimized for both desktop and mobile devices to ensure a smooth user experience.   LINK

- **Travel Website**: Developed an interactive travel website highlighting popular destinations using HTML, CSS, and Bootstrap. Included dynamic UI elements like image sliders, hover effects, and navigation menus to enhance user experience. Focused on responsive design and visual appeal to engage users across devices.   LINK

- **Movie Booking Website:** : Built a responsive movie ticket booking website using HTML and Tailwind CSS. Designed a clean and user-friendly interface for browsing movies and booking tickets. Focused on simple layout and smooth experience on all devices.   LINK

- **Restaurant Website**: Developed a static restaurant website using HTML and CSS with a user-friendly layout. Designed clear navigation and visually appealing sections to display menu, location, and contact details. Focused on simplicity and ease of use.   LINK
